For a more detailed description and for purchasing these books please see: <https://shop.shangshungfoundation.com/en/36-books>

All these books are all based on the translation of our main translators of the Ka-Ter translation project, Adriano Clemente and Elio Guarisco. Without their skill of being able to translated these texts from Tibetan into English, their dedication to our Master and the teachings, and their admirable diligence, and also without the skills of our qualified editors, we would not be able to offer you continuously new publications.

**A brief update of the work of our translators**

By the end of October, Adriano Clemente will deliver to the editors two books:

- *The Namkha for harmonizing the energy of the elements*
- *The Necklace of Jewels on Tibetan Culture*

From November on he will work on the final revision of the *Tregchod book*.

Elio Guarisco is in process of finishing the Book on the three retreats on *Changchub Dorjes Tregcho teaching from the Yangthig Nagpo Terma*

After having finished this work Elio will start with the revision of the translation of the root tantra of the *Drathalgyur Tantra* that Jim Valby did.

Thank you so much and very best wishes,  
Oliver Leick  
Director of the Shang Shung Institute Austria
